Part A for June 1920.

SUBJECT

Introduction of new Steam Boilers
and Prime Movers Act in Mysore

Mamaswamy Gangar
15-9-27

GOVERNMENT OF HIS HIGHNESS THE RANAJA OF MYSORE.
Proceedings of the General and Revenue Secretariat.
Judicial and Legislative (Legislation)
For June 1920.

"A" Collection.

Serial No 1-16.

Introduction of the Steam-Boilers and Prime
Movers Act in Mysore.

Table of contents

Serial No	number and date of letter and contents.	Page in A Proceed
--------------	---	----------------------

1. To the District Magistrate, Kolar, No J 717
dated 27-8-1917.

Requests to inform Govt. the number of steam
boilers in use in his district outside the K.G F.
area whether owned by the State or by private
persons.

- 1A. To the District Magistrates other than Kolar
No J 718 dated 27-8-17.

Requests to inform Govt. the number of steam
boilers in use in their districts whether owned
by the State or by private persons .

2. From the District Magistrate, Tumkur.
No D2 Dis dated No 19 dated 8-9-17.

States that there is only one boiler in
Tumkur owned by Mr. Hema Hanumanthiah.

3. From the District Magistrate, Kadur. No D2 Dis 14
dated 18-9-27.

Reports that there are 7 steam boilers owned
by private persons and 4 by the State.

4. From the District Magistrate, Shimoga. No
J. C. 142 dated 27-9-17.

Forwards a statement furnishing the required
information.

5. From the District Magistrate, Chitaldrug,
No D2.36 dated 2-10-17.

States that there are 15 steam boilers in use in his district.

6. From the Dst. Magistrate, Mysore, No D2 Dis 124 dated 2-10-17.

Submits a statement showing the number of steam boilers in use in the Mysore District.

7. From the Dist. Magistrate, Bangalore. No D Dis 63 dated 10-10-17.

Forwards a statement of steam boilers in use in the Bangalore district.

8. From the Dist, Magistrate Kolar. No D Dis 122 dated 12-10-17.

Forwards a statement showing the number of steam boilers in the Kolar district outside the Kolar Gold Fields area.

9. From the Dist. Magistrate, Hassan. No R O C 214 dated 1-12-17.

Submits the information in regards the number of steam boilers in use in the Hassan district.

10. To the Chief Engineer in Mysore. No J 2046 dated 11-12-17.

Requests him to inform Govt. the number of steam boilers owned by the D.P.W. and in work in the State.

11. From the Chief Engineer in Mysore. No 216 dated 7-1-18.

Forwards a list of steam boilers owned by the D. P W and in use in the State.

12. To the First Assistant to the Resident in Mysore. No Pol 939 dated 10-4-18.

Forwards a copy of the Bill to provide for the inspection and management of steam boilers and prime movers in Mysore, which will be placed before the Legislative Council in due course.

13. From the First Assistant to the Resident in Mysore No 2953 dated 22-4-18.

Informs that the Resident has no prima facie objection to the Bill being placed before the

Legislative Council .

14. To the Secretary, Kolar Gold Fields Mining Board, Oorgaum. No G 4057 dated 24-8-18.

Forwards a copy of the draft Mysore Steam Boilers and Prime Movers Bill and requests to favour Govt. with the suggestions ~~or~~ or criticisms of the Board thereon, if any.

From the Secy. K G F Mining Board. No dated 2-5-19.

Enquires whether the suggestions and criticisms contained in the Board's letter of 6-11-18 have been considered in connection with the Bill and to what extent, if any, they have been adopted.

15. To the Secy. K.G.F. Mining Board. No G 25907 dated 17-5-19.

States that his letter of November last does not seem to have been received in this Office and that action will now be taken on the copy now sent and the result intimated in due course.

16. To the Compiler, Mysore Gazette, No G 27085 dated 7-6-1920.

Orders that ^{the} Regulation to provide for the inspection and management of Steam-Boilers and Prime Movers in Mysore, which received the assent of His Highness on the 29th day of April 1920, be published as Regulation No III of 1920.

Note on the Boilers and Prime Movers Bill.

6.

In the early part of 1900, Dr. Smeeth urged for the consideration of Government the desirability for the appointment of a specially qualified Inspector of Boilers and Prime Movers for Mysore, and a draft Bill was also prepared in the Legislative Branch to give effect to the proposal and printed. Subsequently the matter was allowed to drop till 1904 when he again pressed the subject on the attention of Government, and in 1905 Government while sanctioning the appointment of an additional Inspector of Mines, stated that the new Inspector would also be required to make a general inspection of the Boilers periodically. Dr. Smeeth was requested to select a suitable candidate for the post and he proposed the name of one Mr. Hume on a salary of Rs. 600 - 50 - 900. But as the then Dewan (Mr. V. P. Madhava Rao) declined to sanction the appointment for more than three years or to give passage -- money or pension, Mr. Hume did not accept the offer and the matter was allowed to drop.

In 1909 Dr. Smeeth again brought to the notice of the Government the urgent necessity for an Inspector as there were over 300 boilers in the Kolar Gold Fields alone and serious accidents had occurred owing to the bursting of the boilers. The proposals of Dr. Smeeth referred not only to an Inspector of Boilers and Prime Movers, but also of the ^{to an inspection} contemplated ^{implication} machinery now in use in the Kolar Gold Fields and it is reported that such machinery is not used anywhere in British India. After a full consideration of the subject, the Dewan (Mr. Ananda Rao) recommended to His Highness that Dr. Smeeth's proposals might be sanctioned. But the proposal was not sanctioned on the ground that a highly paid Inspector was not necessary.

The Second Member suggests that the question may be reopened on the ground that apart from Kolar Gold Fields

(where

(where he considers that the boilers should be passed by a Government officer) there are several other boilers - which require inspection by a Government Inspector. He also suggests that a draft bill like the Boilers and Prime Movers Act which law is in force even in smaller States like Travancore and Cochin may be considered first.

9 It may here be mentioned that there are about 800 boilers in Madras and the inspecting staff consists of three Inspectors:-

1. Senior Inspector	500 - 40 - 700
2. Second Inspector	350 - 20 - 450
3. Third Inspector	300 - 10 - 350

10 In the Kolar Gold Fields alone, it is reported that there are over 300 boilers.

Subject:—

57 Introduction of the steam Boilers and Prime Movers Act into Mysore.

V 37) 58 In the early part of 1900 Dr. Smeeth^x urged for the consideration of Government the desirability of the appointment of a specially qualified Inspector of Boilers and Prime Movers for Mysore and a draft bill was also prepared in the Legislative Branch to give effect to the proposal and printed, but subsequently the matter was allowed to drop, till 1904 when Dr. Smeeth again pressed the subject on the attention of Government, and in 1905 Government, while sanctioning the appointment of an additional Inspector of Mines, stated that the new Inspector should also be required to make a general inspection of boilers periodically. One Mr. Hume was recommended^x for the post on Rs.600-50-900, but as the Government declined to sanction the appointment for more than 3 years, Mr. Hume did not accept the offer.

2 59 38) In 1909 Dr. Smeeth^x again brought to the notice of the Government the urgent necessity for an Inspector as there were over 300 boilers in the Kolar Gold Fields alone and serious accidents had occurred owing to the bursting of the boilers. The proposal of Dr. Smeeth referred not only to an inspection of Boilers and Prime movers but also to an inspection of the complicated machinery now in use in the Kolar Gold Fields and it is reported that such machinery is not used anywhere in British India. In submitting the file, the Dewan (Mr. Ananda Rao)^x wrote as follows:—

B "There is considerable force in Dr. Smeeth's remarks about the necessity of such an officer. There is,

17/16

is, however, one defect in them viz., that he does not appear to make sufficient allowance for the consideration of self-interest and of their own individual reputation and responsibility which will always operate upon the Mining Companies and make them employ the best machinery under the best Engineers."

C

60/39 While returning the file, Mr. Campbell replied that if an Inspector was really needed, his appointment should not be deferred on financial grounds, but that His Highness would like to know in that connection what arrangements have been made by the Mining Companies for the expert inspection of machinery and that that information might be embodied in the Dewan's Note submitting the question for future orders.

G

3

61/60 After a full and exhaustive consideration of the subject from all standpoints the Dewan (Mr. Ananda Rao) recommended to His Highness that Dr. Smeeth's proposal might be sanctioned. But the proposal ~~was~~ was not sanctioned on the ground that His Highness was not prepared in the then existing financial situation to appoint a highly paid Inspector, that it was to the Kolar Mining Companies own interests to employ highly trained Engineers to look after their machinery and that the periodical inspection of the machinery by a highly paid Government Inspector might be dispensed with then as it was in the past.

62/41 In April 1917 I suggested that the question might be reopened on the ground that apart from Kolar Gold Fields where I consider that the Boilers should be passed by a Government officer there are nearly 100 ^{other} boilers in use in the State which require inspection by a Government Inspector. The Engineers in charge of the Boilers in the Kolar Gold Fields are usually no doubt well qualified but it seems to me that the Government have also a very heavy responsibility to discharge, in the matter and have to see that the various precautions necessary to safeguard the lives of the large number

16/17

of labourers employed are duly taken and that the Boilers are properly inspected and tested. The interests of the Companies may sometimes work prejudicially to the interests of the labourers and necessary steps have to be taken by Government to prevent accidents. Further, besides the boilers in the Kolar Gold Fields, there are over 67 boilers belonging to private persons in the other parts of the State and 40 in use in Government Departments. All these also require frequent inspection and testing by technically qualified men. I also suggested that a draft bill like the boilers and Prime movers Act in force in Madras and even in smaller States like Travancore and Cochin, might be considered first.

Page 12 of Office notes

H. 55(v) A bill drafted on the lines of the Madras Act and approved by Mr. H.V. Nanjundayya in March 1911 is kept in the file. The matter was considered in Council who are of opinion that the Bill may be introduced into the Legislative Council. The Council also noted that special arrangements have to be made for the Kolar Gold Fields after consulting the Mining Board. I propose to do this shortly. In the meantime, the introduction of the Bill in the Legislative Council may be sanctioned.

20/3103 Issues
D¹¹¹ 22/3

To the Compiler, Mysore Gazette

no. 268 of 27-3-19.

Publishes the S.C.'s report for general
information.From the Secy, Klyf Mining Bd
Letter of 2-5-19

Inquires whether the suggestions & criticisms
contained in the Bd's letter of the 6.11.18
have been considered in connection with the Bill
and to what extent, if any, they have been
adopted.

65/104 The Board's letter of 6.11.18 referred
to is not in the file; there is also no
entry relating to it in the Branch diary.

105/66 In the Asst Secy's note of 28.8.18
it was mentioned that the opinion of the
Mining Bd on the Bill just then sent to
them might be considered in the Select
Committee. Neither the further notes in
the file nor the report of the Select Comtee
contain any reference to such opinion.

Serial
No.

~~156~~ 67) From the above it seems that the letter of 6th Nov from the Mining Bd, received during the Influenza season, should have been mislaid somewhere, if received here at all & that their opinions have not been before the select committee.

68) 40) In the Agenda for the next meeting, now in print, the Steam Boilers Bill is included for considering the Sec's report on the Bill & passing the latter. As in view of the facts mentioned above further action has to be taken to get copy of the Bd's letter re, the Bill may perhaps be omitted from the Agenda or motion (b) under it changed as follows:- Motion that the Bill be taken up and passed at a subsequent meeting.

Subd for orders

Subject:—

PROMULGATION INTO LAW OF THE BILL TO PROVIDE FOR
THE INSPECTION AND MANAGEMENT OF STEAM BOILERS AND PRIME-MOVERS
IN MYSORE.

97 The gracious sanction of His Highness was accorded on the 19th March 1918 for introducing the Steam Boilers and Prime-Movers Act into Mysore. Leave was granted for the introduction of the Bill at the meeting of the Legislative Council held on the 28th June 1918 and the Bill was read and referred to a Select Committee at the meeting of the Council held on the 17th September 1918. In their report published on the 27th March 1919, the Select Committee generally approved of the provisions of the Bill subject to slight alterations of a minor character.

98 2. In the meantime, the Kolar Gold Field Mining Board sent up certain suggestions in regard to the Bill which was recommitted to the Select Committee for considering the suggestions of the Board. Some of these suggestions were already provided for in the Bill and some were such as could only be provided for in the rules to be framed under the Regulation after the Bill is passed into law. The Select Committee carefully considered the suggestions of the Board in detail and recommended a few alterations in the Bill based on the said suggestions.

99 3. The Bill and the reports of the Select Committee were considered, and the Bill as amended by the Select Committee was passed at the meeting of the Legislative Council held on the 25th March 1920.

100 4. The gracious sanction of His Highness is now solicited for promulgating the Bill into law.

Submitted to His Highness.
174

To the compiler, Mysore Gazette
 vol. no. 27085 of 7-6-20.
 Orders with in Regulation to
 provide for the inspection and
 management of steam-boilers
 and prime movers in Mysore
 which received an assent of
 His Highness on the 29th day
 of April 1920, he published as
 Regulation No III of 1920.

Extract from notes of Discussion with the Kolar Gold Fields Mining Board at two meetings held by the Second Member at Oorgaun on the 13th and 14th March 1918.

x x x x x x

CONTROL OVER BOILERS AND SUITABLE ARRANGEMENTS

It was pointed out to the Board that Government were considering the question of introducing a Boilers and Prime Movers Regulation for Mysore on the lines of British Acts and that the Kolar Gold Fields having the largest number of boilers in use as well as installed, any general law passed in the State will apply to these boilers also. In the recent council resolution, it was decided that special arrangements have to be made for the Kolar Gold Fields, after consulting the Mining Board. I therefore took this opportunity of consulting the Board on the question. The Mining Board's representations were:-

1. That the Regulations in British India are suitable more for factories and that there are special local conditions to be considered so far as the Gold Fields area is concerned.
2. The draft may be sent to the Mining Board before final adoption.
3. No one in the Mines can be deputed as each mine has its own boiler expert and it is therefore desirable to have an outside Inspector for all the mines.
4. If such an Inspector is appointed, he will have enough work all the year round in the Gold Field area itself if proper inspection and testing have to be done.
5. The officer to be appointed under the Regulation should be properly qualified and necessarily of a higher status than the mechanical experts employed in the mines for boilers inspection.

From the discussions it appeared to me to be necessary to appoint a whole time Inspector of Boilers for the Kolar Gold Fields. He may be the first Inspector and another Inspector of Boilers, junior to him in rank, may be appointed as second Inspector for the rest of the State. The Mining Board represented that the officer for

55-

the Gold Field area should be at least of the status of an Assistant Engineer. It also appeared to me to be necessary to invest that officer with the power of inspecting machinery. At present, very little control is exercised by Government through the Chief Inspector of Mines on the machinery installed, which is of a very complicated character and although in the interests of the Mining Companies themselves, every precaution is taken, still some Government inspection would be desirable with a view to minimize accidents to the labour employed.

A Bill to provide for the inspection
and management of Steam-Boilers and Prime
Movers in Mysore.

Preamble..

Whereas it is expedient to provide
for the inspection and management of Steam-
Boilers and Prime-movers; His Highness the
Maharaja is pleased to enact as follows.-

Short title, commence-
ment and extent.

1. (1) This Regulation may be called
the Mysore Steam-Boilers and Prime-movers
Regulation, 19--.

(2) It shall come into force on such
day and shall extend to such places as the
Government may, by Notification in the --
official Gazette, direct.

Limitation of appli-
cation of Regulation.

(3) But nothing in this Regulation
shall be deemed to apply to any locomotive
engine, boiler or prime-mover used upon or
appertaining to any railway within the mean-
ing of that word as defined in section 3,
clause (4) ^{of the} Mysore Railways Regulation,
1894, or to any boiler used exclusively for
domestic purposes at atmospheric pressure
or to any boiler or prime-mover used in
any vehicle or class of vehicles which the
Government may, by notification~~s~~ specify.

Definitions.

2. In this Regulation, unless there is something repugnant in the subject or context:-

"Boiler"

"Boiler" includes any vessel used for generating steam, under pressure and any apparatus closely attached thereto and affected by the steam pressure;

"Prime-mover"

"Prime-mover" includes any steam-engine, steam-hammer, fly-wheel, first driving shaft or pulley attached to any such engine, and every appurtenance necessary for the safe and efficient working of a prime-mover;

"Owner"

"Owner" includes any agent or hirer using any boiler or prime-mover.

Appointment of Inspectors.

3. (1) The Government may at any time after the passing of this Regulation appoint such persons to be Inspectors as it thinks fit, and suspend or remove any person so appointed.

(2) The persons so appointed shall, within such local area as the Government may direct, exercise the powers and perform the duties conferred and imposed by, or under this Regulation on an Inspector.

examination of the boiler. The day so appointed shall be a day not later than thirty days from the day on which the notice is received.

Examination by the
Inspector.

(3) On the day and at the time so appointed, the Inspector shall carefully examine the boiler and every part thereof, and the owner or person in charge thereof shall afford to the Inspector all reasonable facilities for the examination, and all such information regarding the boiler as he may reasonably require.

Payment of fees for
examination.

(4) Every person giving a notice under this section shall simultaneously pay the ^efees prescribed for the examination by a rule made under section 24.

Inspector may require
owner to alter boiler.

6. If, on making the examination under section 5, the Inspector is of opinion that the boiler requires, in view to safe working, any alteration or addition, he shall refuse to grant ^alicense until the alteration or addition is made, and shall serve on the owner of the boiler within forty-eight hours of his examination a written notice of his refusal, specifying

the alteration or the addition which, in his opinion, is required.

When Inspector to grant license.

7. When the Inspector is satisfied that the boiler is in good condition and not so exposed as to be likely to be dangerous, he shall give to the owner thereof a written license, signed by him, in the form prescribed in Schedule A. hereto annexed, or in a form to the like effect.

Period of license.

No such license shall remain in force for more than twelve months.

License to state certain particulars.

8. Every license granted under this Regulation shall state the period for which it is to continue in force, and shall cease to be in force on the expiration of that period. Such license shall also state the pressure beyond which the boiler may not be worked.

Boiler to be registered and marked with registry number.

9. On granting a license under section 7, the Inspector shall register the boiler in such form as the Government may prescribe and shall allot to it a number to be called the registry number of the boiler. The registry number shall be communicated to the owner and shall, within

such

62

such reasonable period as the Inspector may direct, be permanently marked upon the boiler by the owner thereof so as to be plainly -- visible and in such manner as Government may prescribe.

Owner to produce li- /
cense when called upon.

10. (1) The owner of any boiler, who shall have obtained a license therefor shall, at all reasonable times during the period for which such license is in force, be bound to produce the said license when called upon to do so by ^{the Chief Inspector of Mines or by} the District Magistrate or by any person generally or specially authorised in writing by the ^{Chief Inspector of Mines or the} District Magistrate to demand its production.

Transfer of license on
change of ownership.

(2) A person who becomes owner of a boiler during the time for which a license therefor is in force ~~shall~~ shall be entitled to receive the license from the prece~~d~~ding owner and shall be subject to the provisions of clause (1) of this section.

Notice of alteration, or
renewal in boiler to
Inspector.

(3) If at any time during the period for which a license has been granted under section 7 or section 13, any structural alte~~r~~ation or renewal is made in any part of the boiler to which such license ~~is~~ relates, it shall be the duty of the owner of such boiler to give notice in writing of such -- alteration or renewal to the Inspector of - Boilers before the same is begun.

Report of accidents
to Inspector by owner
or person in charge.

11. (1) It shall be the duty of every owner of, or person in charge of, the boiler to report in writing to the Inspector of - Boilers within twelve hours of its occurrence every accident to the boiler or

to

which it has been granted is not in good condition or has, since the granting of the license, sustained injury; or

(c) that the registry number is not marked upon the boiler as required by this Regulation.

Appeal against refusal
etc, of license.

13. (1) The owner of any boiler may appeal from any order made under this Regulation refusing to grant, or revoking or suspending, a license.

Presentation of appeal.

(2) The appeal shall, within one calendar month from the day on which the owner received the order appealed against, be presented in person or otherwise to the Magistrate of the District in which the boiler is situated.

Issue of ^usummonses in
connection with appeal.

(3) The District Magistrate shall within 15 days of the receipt of the appeal publicly enquire into and determine the appeal and shall have power to issue ^us~~p~~m-
monses for the attendance of witnesses and the production of documents, and the provisions of the Code of Criminal Procedure shall, so far as applicable, ^{shall} apply to such
summonses

summonses and the persons so summoned.

Method of hearing
appeal.

(4) The District Magistrate shall summon to his assistance, in such manner as the Government may direct, two competent ~~Assessors~~ with the necessary practical knowledge and experience; and such assessors shall attend and assist accordingly.

Procedure in/ case of
successful appeal.

(5) If the District Magistrate is satisfied that the owner is entitled to the license, he shall grant a license in such form as the Government may, by rule, prescribe, or shall cancel the order ~~revoking~~ or suspending the license, as the case may be; he shall further direct that the expenses of the appeal incurred by the appellant, to such amount as may seem reasonable to him, (shall) be reimbursed from the public funds.

Procedure in case of
unsuccessful appeal.

(6) If the District Magistrate is of opinion that the order appealed against is right, he ~~shall~~ shall dismiss the appeal; and he may award any sum not exceeding one hundred rupees to be paid by the appellant as costs; any sum so awarded shall be recoverable .

Regulation be nominated as an examiner.

Certificates may be of different classes.

17. Certificates of competency may be of different classes and shall qualify the holders thereof to manage or be in -- charge of boilers of such capacities or kinds as may be prescribed in the rules framed under section 24 (c).

Possession of certain other certificates to entitle holders to certificates under this Regulation.

18. (1) If any person holds a certificate of competency granted under the provisions of any law in British India, or in the United Kingdom or in any British Colony he shall be entitled to receive a certificate of competency as aforesaid, without undergoing examination.

(2) The certificate granted under this section shall be of such class as the examiners appointed under section 16, on a consideration of the nature of the certificate held, shall determine.

Certificates of service may be granted to persons possessing proved practical skill.

19. (1) The examiners may, in the case of any person who satisfies them that he has served for a period of not less than three years in actual charge and management of a boiler and that he is possessed of adequate practical skill for such work,

15/6

grant to him a certificate of service to the effect that he is qualified to the like extent as the holder of a certificate of competency of any class which the Board in such certificate of service specifies.

(2) A certificate of service so granted shall have the same effect as a certificate of competency granted under this Regulation.

Cancellation or suspension of certificate after enquiry.

20. (1) If, on an enquiry conducted under this Regulation, it shall be established to the satisfaction of Government that the holder of any certificate granted under this Regulation is incompetent, or is addicted to drunkenness, or has been guilty of any serious misconduct or negligence, the Government may cancel such certificate, or suspend the same for such time as it shall deem fit.

Pending enquiry, holder to surrender certificate.

(2) The holder of such certificate shall surrender it pending the result of the enquiry, and, should he fail to do so, the Government may cancel the certificate by notification in the official Gazette.

Duplicates of certificates may be given.

21.

Whenever the holder of a

certificate

169

certificate granted under this Regulation proves to the satisfaction of Government that such certificate has been lost or destroyed, the Government may direct that a duplicate of the same shall be issued; such duplicate shall have the same validity as the original certificate.

Penalties.

22. (1) Any owner of a boiler who fails to report as required by section 10 any structural alteration or renewal thereof; and

(2) Every owner^{of}, or person in charge, of any boiler who -

(a) uses that boiler in contravention of the provisions of section 4 or in contravention of the terms of the license granted under section 7, or

(b) fails to produce a license when called upon to do so under section 10 of this Regulation, or

(c) within a local area defined under section 15 allows any boiler to be used when not in the direct and immediate management and charge of a person duly certified as competent under this Regulation, or

(d) fails to report, as required by section ~~10~~¹¹ (1), any accident of the kind mentioned in that section, and

(3) every person who prevents an Inspector from entering, under section 14, any place or building, shall~~/~~ be punished with^a/fine which may extend to five hundred rupees.

Charges not to be brought after six months.

23. No charge of an offence under this Regulation shall be brought against any person after the expiration of six months from the date of the commission of the offence.

Power to make rules after publication.

24. The Government may, at any time after the passing of this Regulation, after previous publication, make rules consistent with this Regulation for all or any of the following purposes~~xxxix~~ (that is to say) :-

(a) For prescribing the powers, duties, mutual relations and official subordination of Inspectors and of officers authorised to revoke and suspend licenses under section 12;

(b) for fixing the fees payable on account of examinations made by Inspectors under this Regulation at rates not exceeding those prescribed in ^c~~x~~ Schedule B.;

(c)

91

(c) for regulating the grant and record of certificates ^{of} competency and of service;

(d) for the conduct of examinations for such certificates and for regulating the fees to be charged for admission to the same;

(e) for providing for enquiry into an allegation of drunkenness, misconduct or negligence on the part of the holder of a certificate of competency or service;

(f) generally for carrying out^t the purposes of this Regulation.

Regulation may be applied to prime-mover by notification.

25. (1) The Government may, by notification, -

~~(a)~~ apply so much of this Regulation as relates to the licensing, inspection or management of boilers to prime-movers generally, or to prime-movers of any particular class, in any local area in which this Regulation is, at the time, in force. ~~and~~ 7

7. ~~(b) cancel any such notification.~~ 7

~~(2) While any such notification is in force in any local area, in the provisions of the Regulation thereby made applicable the word "boiler" shall be held to include~~

Under Rule ³¹ of the Rules for the conduct of business of the Mysore Legislative Council, the accompanying *Mysore Steam Boilers and Prime Movers Bill* is published for general information with the statement of objects and reasons.

By Order,

S. 11/7
Secretary, Mysore Legislative Council.

(Here print the accompanying Bill with the statement of objects and reasons).

To

The Compiler, *Mysore Gazette* for publication in Part III of the Gazette in English and Kannada and for sending *100* copies in English and *25* copies in Kannada to this office. Proof should be sent to this office for approval before publication.

NOTIFICATION.

No. 13—L. C. dated 20th July 1918.

Under Rule 31 of the Rules for the conduct of business of the Mysore Legislative Council, the accompanying Mysore Steam-boilers and Prime-movers Bill is published for general information with the statement of objects and reasons:

By Order,

G SREENIVASA IYER,
Secretary, Mysore Legislative Council.

A Bill to provide for the inspection and management of Steam-boilers and Prime-movers in Mysore.

Whereas it is expedient to provide for the inspection and management of Steam-boilers and Prime-movers; His Highness the Maharaja is pleased to enact as follows:—

Preamble.

Short title, commencement and extent. 1. (1) This Regulation may be called the Mysore Steam-boilers and Prime-movers Regulation.

(2) It shall come into force on such day and shall extend to such place as the Government may by notification in the official Gazette, direct.

(3) But nothing in this Regulation shall be deemed to apply to any locomotive engine, boiler or prime-mover used upon or appertaining to any railway within the meaning of that word as defined in section 3, clause 4, of the Mysore Railways Regulation, 1894, or to any boiler used exclusively for domestic purposes at atmospheric pressure or to any boiler or prime-mover used in any vehicle or class of vehicles which the Government may by notification specify.

Limitation of application of Regulation.

Definitions

2. In this Regulation, unless there is something repugnant in the subject or context:—

“Boiler” includes any vessel used for generating steam under pressure and any apparatus closely attached thereto and affected by the steam pressure;

“Prime-mover” includes any steam engine, steam hammer, fly-wheel, first driving shaft or pulley attached to any such engine, and every appurtenance necessary for the safe and efficient working of a prime-mover

“Owner.”

“Owner” includes any agent or hirer using any boiler or prime-mover.

(1) The Government may, at any time after the passing of this Regulation, appoint such persons to be Inspectors as it thinks fit, and suspend or remove any person so appointed.

(2) The persons so appointed shall, within such local area as the Government may direct, exercise the powers and perform the duties conferred and imposed by or under this Regulation on an Inspector.

After such day as the Government may, by notification in the official Gazette, fix in this behalf, no boiler shall be used unless a license authorising its use has been granted under this Regulation and is in force.

Use of boiler without license prohibited.

Provided that the owner of a boiler who holds in respect thereof a license as aforesaid, and who, before the expiry of such license, gives to the Inspector for the local area in which the boiler is situated, not less than thirty days before such expiry, notice of his intention to continue to use the same afterwards, may continue to use or permit the use of the boiler as allowed by the said license until it is examined in pursuance of such notice.

Provision in respect of continued use.

Suggestion
The chief Inspector at least should be a qualified Engineer with practical experience gained in Europe or America

He has been
the manager of
the hotel since
1910.

than 30 days -

(2) On receipt of the notice the Inspector shall appoint a day and time, after sun-rise and before sun-set, for the examination of the boiler. The day so appointed shall be a day not later than thirty days from the day on which notice is received.

(4) Every person giving a notice under this section shall simultaneously pay the fees prescribed for the examination by a rule made under section 24.

7. When the Inspector is satisfied that the boiler is in good condition and not so exposed as to be likely to be dangerous, he shall give license to the owner thereof a written license signed by him, in the form prescribed in Schedule A hereto annexed or in a form to the like effect.

8. Every license granted under this Regulation shall state the period for which it is to continue in force, and shall cease to be in force on the expiration of that period. Such license shall also state the pressure beyond which the boiler may not be worked.

10. (1) The owner of any boiler, who shall have obtained a license therefor, shall, at all reasonable times during the period for which such license is in force, be bound to produce the said license when called upon to do so by the Chief Inspector of Mines or by the District Magistrate or by any person generally or specially authorised in writing by the Chief Inspector of Mines or the District Magistrate to demand its production.

(3) If at any time during the period for which a license has been granted under section 7 or section 13, any structural alteration or renewal is made in any part of the boiler to which such license relates, it shall be the duty of the owner of such boiler to give notice in writing of such alteration or renewal to the Inspector of Boilers before the same is begun.

10/10/10
 10/10/10
 10/10/10

11. (1) It shall be the duty of every owner of, or person in charge of, the boiler to report in writing to the Inspector of Boilers within twelve hours of its occurrence every accident to the boiler or to any apparatus attached thereto which is calculated to weaken the strength of such boiler or to render it liable to explode.

(2) Every such report shall contain a true description of the nature of the accident and of the injury thereby caused sufficient to enable the Inspector of Boilers to judge of the gravity of the accident.

(3) The owner of, or person in charge of, the boiler shall be bound to answer truly to the best of his knowledge and ability every question put to him in writing by the Inspector of Boilers as to the cause, nature and extent of the accident.

12. Any person authorised by the Government in this behalf may revoke or suspend any license granted under this Regulation in respect of any boiler when he has reason to believe—

(a) that the license has been fraudulently obtained, or has been granted erroneously or without sufficient examination; or

(b) that the boiler in respect of which it has been granted is not in good condition or has, since the granting of the license, sustained injury; or

(c) that the registry number is not marked upon the boiler as required by this Regulation.

13. (1) The owner of any boiler may appeal from any order made under this Regulation refusing to grant or revoking or suspending a license.

(2) The appeal shall, within one calendar month from the day on which the owner received the order appealed against, be presented in person or otherwise to the Magistrate of the District in which the boiler is situate.

(3) The District Magistrate shall within fifteen days of the receipt of the appeal publicly enquire into and determine the appeal and shall have power to issue summonses for the attendance of witnesses and the production of documents, and the provisions of the Code of Criminal Procedure, 1904, shall, so far as applicable, apply to such summonses and the persons so summoned.

(4) The District Magistrate shall summon to his assistance, in such manner as the Government may direct, two competent assessors with the necessary practical knowledge and experience; and such assessors shall attend and assist accordingly.

(5) If the District Magistrate is satisfied that the owner is entitled to the license, he shall grant a license in such form as the Government may, by rule, prescribe, or shall cancel the order, revoking or suspending the license, as the case may be; he shall further direct that the expenses of the appeal incurred by the appellant, to such amount as may seem reasonable to him, shall be reimbursed from the public funds.

(6) If the District Magistrate is of opinion that the order appealed against is right, he shall dismiss the appeal; and he may award any sum not exceeding one hundred rupees to be paid by the appellant as costs; any sum so awarded shall be recoverable from the appellant as if they were arrears of land revenue.

14. An Inspector may, at any time for the purpose of inspecting a boiler, enter into any place or building where he has reason to believe that the same is being used.

15. The Government may, by notification in the official Gazette, direct that, from a date specified and within any defined local area, no boiler shall be used unless it is in the direct and immediate management and charge of a person certified under this Regulation, as hereinafter provided, to be competent for the charge thereof.

16. Subject to the provisions of Section 18, certificates of competency for such Government, to make rules charge shall be granted only after examinations conducted for conduct of examinations for under rules framed by Government under section 24 (d) certificates and to appoint examiners of this Regulation.

The examiners shall be appointed by Government, provided that in no case shall an Inspector appointed under this Regulation be nominated as an examiner.

17. Certificates of competency may be of different classes and shall qualify the holders thereof to manage or be in charge of boilers of such capacities or kinds as may be prescribed in the rules framed under section 24 (c).
Certificates may be of different classes.

(1) If any person holds a certificate of competency granted under the provisions of any law in British India, or in the United Kingdom or in any British Colony he shall be entitled to receive a certificate of competency, as aforesaid, without undergoing examination.
Possession of certain other certificates to entitle holders to certificates under this Regulation.

(2) The certificate granted under this section shall be of such class as the examiners appointed under section 16, on a consideration of the nature of the certificate held, shall determine.

19. (1) The examiners may, in the case of any person, who satisfies them that he has served for a period of not less than three years in actual charge and management of a boiler and that he is possessed of adequate practical skill for such work, grant to him a certificate of service to the effect that he is qualified to the like extent as the holder of a certificate of competency, of any class, which the Board in such certificate of service specifies.
Certificates of service may be granted to persons possessing proved practical skill.

(2) A certificate of service so granted shall have the same effect as a certificate of competency granted under this Regulation.

20. (1) If, on an enquiry conducted under this Regulation, it shall be established to the satisfaction of Government that the holder of any certificate granted under this Regulation is incompetent, or is addicted to drunkenness, or has been guilty of any serious misconduct or negligence, the Government may cancel such certificate, or suspend the same for such time as it shall deem fit.
Cancellation or suspension of certificate after enquiry.

(2) The holder of such certificate shall surrender it pending the result of the enquiry and, should he fail to do so, the Government may cancel the certificate by notification in the official Gazette.
Pending enquiry holder to surrender certificate.

21. Whenever the holder of a certificate granted under this Regulation proves to the satisfaction of Government that such certificate has been lost or destroyed, the Government may direct that a duplicate of the same shall be issued; such duplicate shall have the same validity as the original certificate.
Duplicates of certificates may be given.

22. (1) Any owner of a boiler, who fails to report as required by section 10, any structural alteration or renewal thereof; and
Penalties.

(2) Every owner of, or person in charge of any boiler who—

(a) uses that boiler in contravention of the provisions of section 4 or in contravention of the terms of the license granted under section 7, or

(b) fails to produce a license when called upon to do so under section 10 of this Regulation or

(c) within a local area defined under section 15 allows any boiler to be used when not in the direct and immediate management and charge of a person duly certified as competent under this Regulation, or

(d) fails to report, as required by section 11, any accident of the kind mentioned in that section, and

(3) every person, who prevents an inspector from entering, under section 14, any place or building, shall be punished with a fine w

Notice of prosecution 23. No charge of an offence under this Regulation shall be brought against any person after the expiration of six months from the date of the Commission of the offence.

Charges not to be brought after six months. 24. The Government may, at any time after the passing of this Regulation, after previous publication, make rules consistent with this Regulation for all or any of the following purposes (that is to say):—

(a) for prescribing the powers, duties, mutual relations and official subordination of Inspectors and of officers authorised to revoke and suspend licenses under section 12;

(b) for fixing the fees payable on account of examinations made by Inspectors under this Regulation at rates not exceeding those prescribed in Schedule B

(c) for regulating the grant and record of certificates of competency and of service;

(d) for the conduct of examinations for such certificates and for regulating the fees to be charged for admission to the same;

(e) for providing for enquiry into an allegation of drunkenness, misconduct or negligence on the part of the holder of a certificate of the competency or service;

(f) generally for carrying out the purposes of this Regulation.

25. The Government may, by notification, apply so much of this Regulation as relates to the licensing, inspection or management of boilers to prime-movers generally or to prime-movers of any particular class, in any local area in which this Regulation is, at the time, in force.

SCHEDULE A

(SEE SECTION 7.)

Form of license.

Name of owner	Registry number and description of boiler and age	Power	When and where made	When and where last repaired	Time for which this license is to be in force	Maximum pressure at which the boiler may be worked	Remarks

I, the undersigned, certify that I have examined the boiler above described, and, to the best of my judgment, it is in good condition, and is not so exposed as to be likely to be dangerous.

Inspector.

SCHEDULE B.

(SEE SECTION 24 (b).)

Rates of fees leviable for examinations of boilers.

					Rs.
1.	For the examination of each boiler not exceeding 10 horse-power nominal				15
2.	Do do exceeding 10 but not exceeding 20				20
3.	Do do exceeding 20 do 30				30
4.	Do do exceeding 30 do 50				40
5.	Do do exceeding 50 horse-power nominal				50

Statement of objects and reasons.

The question of inspecting and testing the steam-boilers in the State has been engaging the attention of Government for the last few years. More than 300 boilers are in use in the Kolar Gold Fields and nearly 100 in other parts of the State. Various precautions are necessary to safeguard the lives of the large number of employees. Provision has to be made for the periodical inspection of the boilers and it is necessary to see that necessary steps are taken to prevent accidents. It is therefore deemed desirable to introduce into Mysore, a Steam-boilers and Prime-movers Regulation. The Bill has accordingly been drafted on the lines of the Madras Steam-boilers and Prime-movers Act, 1893.

ment of Steam Boilers and Prime-Movers in
Mysore.

We, the members of the Select Committee
appointed to consider the above bill, have th
carefully
honour to report that the bill was/considered
by us and that it requires no change except a
few alterations of a minor character.

In clause (2) of section 1, we propose
the insertion of the words "and from such date
after the words "extend to such place" .

In clause (1) of section 18, we propose
that the words "or any other place approved
by Government" should be inserted after the
words "British Colony". The necessity for
this addition is obvious.

We have had the benefit of consulting
Ch. Elect. Engs. @@@@
Mr. S.G. Forbes on the several provisions of
the bill, he having been requested to be
present at our meeting.

We recommend that the Bill be passed
with
~~and~~ the alterations mentioned above and that
it need not be published in the Gazette.

NOTIFICATION.

No. 265 -L. C., dated 27th March 1919.

Under Rule 40 of the Rules for the conduct of business of the Mysore Legislative Council, the following Report of the Select Committee on the Bill to provide for the inspection and management of Steam-boilers and Prime-movers in Mysore, is published for general information.

By Order,
P. MAHADEVAYYA,
Secretary, Mysore Legislative Council.

**Report of the Select Committee on the Bill to provide for the
inspection and management of Steam-boilers and
Prime-movers in Mysore.**

We, the members of the Select Committee appointed to consider the above Bill, have the honour to report that the bill was carefully considered by us and that it requires no change except a few alterations of a minor character.

In clause (2) of section 1, we propose the insertion of the words "and from such date" after the words "extend to such place."

In clause (1) of section 18, we propose that the words "or any other place approved by Government" should be inserted after the words "British Colony". The necessity for this addition is obvious.

We have had the benefit of consulting Mr. S. G. Forbes, Chief Electrical Engineer, on the several provisions of the Bill, he having been requested to be present at our meeting.

We recommend that the Bill be passed with the alterations mentioned above and that it need not be published in the Gazette.

To

The Chief Secretary to the

Government of His Highness the Maharaja of Mysore,

General & Revenue Secretariat,

B a n g a l o r e .

Sir,

With reference to the Report of the Select Committee on the Mysore Steam-Boilers and Prime Movers Regulation published in the "Mysore Gazette" of 3rd April 1919, I have the honour respectfully to enquire whether the suggestions and criticisms contained in the Board's letter to you of 6th November 1918, have been considered in connection with the Regulation, and to what extent, if any, they have been adopted.

I have the honour to be,

Sir,

Your most obedient servant,

5th May 1919

To

The Dewan of Mysore,

2nd member in
Bangalore.

Complete
Sir,

Person above
According to the "Mysore Gazette" of 3rd April 1919, the Select Committee appointed to consider the Mysore Steam-boilers and Prime-movers Regulation has recommended that the Bill be passed with certain minor alterations in the wording only, from which it is apparent that the suggestions sent in by the Mining Board in response to letter - No.G.4057 T, dated 24th August 1918 - addressed to them by the Chief Secretary, were not considered nor laid before the Select Committee.

1.4.5.72
I am directed to forward to you a copy of the Board's letter dated 6th November 1918 to the Chief Secretary, and to request most respectfully that, as the Regulation will affect the Kolar Gold Field more than any other part of the State, the suggestions contained in that letter, which were the outcome of careful deliberation on the part of a technical Committee specially appointed to study the draft, may very kindly be referred to the Select Committee for consideration before the Bill is passed into law.

The Board feel confident that Government will be pleased to accede to their request, particularly in view of the assurance held

out to them in March 1918 by the then Second Councillor - on the occasion of the Conference held during his visit to the Gold Field - that they would be consulted, and their representations duly considered, before the final draft was presented.

I have the honour to be,

Sir,

Your most obedient servant,

A handwritten signature in dark ink, appearing to be 'D. A. ...', written over a diagonal line that crosses the signature.

Secretary.

To

~~C. S. Balasundaram Iyer, Esq., B. A.,~~

Chief Secretary to the Government of

His Highness the Maharaja of Mysore,

General & Revenue Secretariat,

Bangalore.

Sir,

In reply to your No. G. 4057 T. dated 24th August, asking for suggestions or criticisms in regard to the Mysore Steam Boilers and Prime Movers Bill, I am directed to make the following remarks :-

SECTION 3. (1) The Chief Inspector at least, under this Regulation should be a fully qualified Engineer, with practical experience gained in Europe or America. (rule)

SECTION 5. (11) The time limit of 30 days appears to be needlessly long, and may cause considerable inconvenience and loss, in case of inspection after repairs, and it is suggested that seven days be substituted therefor. ✓

SECTION 6. The wide powers given to Inspectors under this section and others, need close definition under the rules that are to be made. (rule)

As the regulation stands, an Inspector may close down a boiler plant for a month or more, on grounds which may be shown on appeal (Section 13) to have been quite insufficient or unreasonable.

copy ✓ SECTION 10. (3) That the word "important" be inserted before the word "renewal" in every case in which it occurs in this paragraph. ✓

✓ SECTION 13. (3) All costs of a successful appeal should be refunded. *sufficient provision exist in str. cl 5*

SECTION 14. It should be clearly stated in the rules that it shall

noted ✓ not be lawful for an Inspector to interfere with the employees or (rules) the working of a boiler, without prior reference to the owner, or his representative.

Need not be considered since sec 15 refers to the apprehensions SECTION 15. It is not clear who the certified persons under this regulation are to be. If it includes the ordinary firemen it will be a source of much useless trouble and inconvenience. Would one certified person be sufficient for a Mine, or would it be necessary for one certificated person to be in charge of each battery of boilers on every shift ?

In view of the fact that the boilers on the Kolar Gold Field are, and always have been, under the direct charge of competent and qualified Engineers and Boilersmiths, the Board is strongly of the opinion that Sections 15 to 21 inclusive, should not be enforced on this Field.

It appears to be assumed in the "Statement of objects and reasons", and also in the speech made on the introduction of the Regulation in the Council, that the interests of the owners of boilers and of employees as regards safety are opposed, and that the safety of employees has been neglected. So far as the Kolar

As the regulation states, "The inspector shall check down a boiler plant for a certain number of times which shall be shown on appeal (Section 13) to have been quite insufficient or unreasonable." SECTION 10. (1) That the word "insufficient" be inserted before the word "reasonable" in every case in which it occurs in this paragraph. SECTION 13. (2) All copies of a successful appeal should be

returned. SECTION 14. It should be clearly stated in the rules that it shall not be lawful for an inspector to interfere with the employees or the working of a boiler, without prior reference to the owner, or his representative.

SECTION 15. It is not clear who the certified persons under this regulation are to be. It includes the ordinary firemen it will be a source of much useless trouble and inconvenience. Would one certified person be sufficient for a mine, or would it be necessary for one certified person to be in charge of each battery of boilers on every shift? In view of the fact that the boilers on the Polaroid Field are, and always have been, under the direct charge of competent and qualified Engineers and Boilermen, the Board is strongly of opinion that Sections 13 to 21 inclusive, should not be enforced on this field.

old Field is concerned these assumptions are unwarranted, as is proved by the very few accidents that have occurred in the working of boilers here during a period of over 30 years.

Provision formed under Co. P.C.
SECTION 22. It should be stated who would be the authority empowered to inflict this fine, and what procedure would be adopted in determining the culpability (or otherwise) of the person named by the Inspector?

not feasible.
SECTION 23. That notice of prosecution should be given within six days of the offence. The period specified (6 months) would entail unwarrantable anxiety to the person so warned.

SCHEDULE B.

The fees are so excessive that they might represent an appreciable amount of interest on the capital value of a boiler, and moreover it is unusual to levy any fee for examination. A moderate annual license fee should cover all examinations.

As the cost and inconvenience of the inspection fall almost entirely on the user, fees payable, if any, should be merely nominal.

Understood
 The term "Nominal Horse Power" should be defined. There is actually no such thing as the Nominal Horse Power of a boiler.

rules with be published in the Gazette as a means of causing criticism by the Board, before the Regulation is put into force.
 The rules to be framed under Section 24 should be submitted

Finally the Board urge that Government should insert in the Act an Exemption Clause to the effect, "that provided always in the case of any installations existing at the time this act is put into force Government may, if they are satisfied that due regard has been and will be paid to the safety of employees, the public and property, exempt such concerns from the necessity to comply with the

For. 200. 215 in Sec 15

is also in connection with the fact that the

proposed in the various instances that have occurred in the working

of letters have during a period of over 20 years.

SECTION 22. It should be stated that the authority empowered

to inflict this fine, and what procedure would be adopted in deter-

mining the culpability (or otherwise) of the person named by the

Inspector?

SECTION 23. The period of prosecution should be given within six

days of the offence. The period specified (6 months) would entail

unwarrantable anxiety to the person so warned.

SCHEDULE B.

The fees are so excessive that they might reasonably be

applicable amount of interest on the capital value of a boiler.

and moreover it is unusual to levy any fee for examination.

moderate annual license fee should cover all examinations.

As the cost and inconvenience of the inspection fall almost

entirely on the user, less payable, if any, should be merely nominal.

The term "Nominal Horse Power" should be defined. There is

actually no such thing as the Nominal Horse Power of a boiler.

The rules to be framed under Section 24 should be submitted

for criticism by the Board, before the Regulation is put into force.

Finally the word "Government" should be inserted in the

Act an Exemption Clause to the effect, "that provided always in the

case of any installations existing at the time this Act is put into

force Government may, if they are satisfied that due regard has

been and will be paid to the safety of employees, the public and

property, exempt such concerns from the necessity to comply with

conditions prescribed in Sections 15 to 21 inclusive, and may revoke such Sections."

I have the honour to be,

Sir,

Your most obedient servant,

(Sd.) C. H. Richards,

Lt. Col.

for Secretary.

draft report of the Select Committee to
consider the amendments suggested by the Gold
Field Mining Board to the Bill, and
bring forward Bill.

C. The members of the Select Committee
appointed to consider the above Bill, have the
honor to report that they have considered the
several suggestions made by the Gold Field
Mining Board, in consultation with Mr. W. J. Morris,
Chief Electrical Engineer, and Mr. J. J. Shanahan,
Government Advocate, who were specially
requested to be present at the meeting, and that
they are in agreement with the amendments noted in paragraph 2
of the report.

D. The Mining Board have suggested, with
reference to clause 3(1) of the Bill, that the
Chief Inspector at least should be a qualified
engineer with practical experience gained in
Europe or America. With a view to providing for
this in the rules to be ~~framed~~ ^{framed} later, we propose
that the word "qualifications" be inserted after
the words "for prescribing the" in clause 3(1).

E. The Board have represented that the
time limit of 30 days prescribed for the registra-
tion of claims after receipt of notice, under
clause 4(2) of the Bill, is needlessly long, and
that it could be reduced to seven days. We
accept this suggestion in respect of the Gold Field
Mining Board, but also in respect of the
Mining Board of Langlands and Lyons and consider that
the different periods be adopted, as it seems
therefore we propose the second sentence of
clause 4(2) be amended as follows:-

be appointed shall be a day, if the boiler is situated in the Colon Gold Fields or the Cities of Benue and Iyore not later than one week, and if situated elsewhere not more than thirty days from the day on which notice is received.

4. The Lord Advocate suggested that the word "important" may be inserted before the word "renewal" wherever it occurs in clause 1⁽³⁾ of the Bill. We agree to this suggestion, but consider it sufficient to insert the word "important" before "renewal" occurring in line 3 of the clause.

5. With regard to the Lord's suggestion that clause ¹³ of the Bill should provide for all costs of a successful appeal being refunded to the party, we have only to point out that provision for this already exists in sub clause (5) thereof.

6. The rates of fees fixed in schedule 1 are stated to be excessively high and it is suggested that the fees payable should be merely nominal. The fees now prescribed in the Bill are the same as those obtaining in Madras and Bombay and are intended to be the maximum amounts payable (vide clause ²⁴ 24(b) of the Bill). To make this clear we propose the insertion of the word "maximum" before the word "rates" in the heading of the schedule. The word to put that the expression "nominal horse power" should be defined. We consider this unnecessary as it is a well understood term and is calculated on the evaporating capacity of a boiler under certain recognized conditions.

7. The Lord contended that, in view of the fact that the boilers in the Colon Gold Fields have always been under the direct control of

competent and qualified engineers and tailor makers, clauses 15 to 21 of the Bill should not be enforced in that order. As clause 15 contains only an enabling provision and the order to which that and the subsequent clauses should be applied has first to be determined by Government and notified in the Official Gazette, we are of opinion that the Board's proposal need not be considered at this stage. This remark applies also to the exemption clause proposed to be added to the Bill in regard to the insulations existing at the time of the introduction of the Regulation.

8. Regarding the Mining Board's proposal to define the authority empowered to inflict the fine mentioned in clause 22 and the procedure to determine culpability, we are of opinion that ~~no amendment is~~ ~~special provisions are necessary, as under the~~ ~~code of Criminal Procedure, etc.~~ ~~it is a very common in which the fine is not to be~~ ~~substant~~ *insufficient safeguards are furnished by the provisions of the*

9. The Board suggest that the notice of prosecution referred to in clause 25 should be given within 14 days of the offence, instead of before the expiration of six months, as the latter period is likely to contain unnecessary delay to the persons concerned. As there will be a great deal of correspondence preliminary to a prosecution we consider that the proposal cannot be accepted.

10. The remaining suggestion of the Mining Board is referred to the provisions in clauses 6 and 14 of the Bill relating to the rules to be framed under the Regulation and may be noted for consideration after the Bill has been passed.

117
to the Board's proposal that the Bill should be subjected to their scrutiny before the regulation is brought into force. We have only to remark that rules can be framed only after the law has become law and that provision already exist. Clause 24 is for the publication of the draft rules before they are finally approved by Government.

11. We recommend that the Bill be amended with the alterations referred to above and those suggested in our previous report. The Bill thus amended need not be published in the Gazette.

REGULATION No. *III OF 1920.

**A Regulation to provide for the inspection and
management of Steam-boilers and Prime-
movers in Mysore.**

REGULATION No. III OF 1920.

A Regulation to provide for the inspection and management of Steam-boilers and Prime-movers in Mysore.

(Received the assent of His Highness the Maharaja on the 29th day of April 1920.)

Whereas it is expedient to provide for the inspection and management of Steam-boilers and Prime-movers; His Highness the Maharaja is pleased to enact as follows:—

Preamble.

1. (1) This Regulation may be called the Mysore Steam-boilers and Prime-movers Regulation, 1920.

Short title, commencement and extent.

(2) It shall come into force on such day and shall extend to such places and from such date as the Government may, by notification in the official Gazette, direct.

(3) But nothing in this Regulation shall be deemed to apply to any locomotive engine, boiler or prime-mover used upon or appertaining to any railway within the meaning of that word as defined in section 3, clause 4, of the Mysore Railways Regulation, 1894, or to any boiler used exclusively for domestic purposes at atmospheric pressure or to any boiler or prime-mover used in any vehicle or class of vehicles which the Government may, by notification, specify.

Limitation of application of Regulation.

2. In this Regulation, unless there is something repugnant in the subject or context:—

Definitions.

“Boiler” includes any vessel used for generating steam under pressure and any apparatus closely attached thereto and affected by the steam pressure;

“Boiler.”

“Prime-mover” includes any steam-engine, steam-hammer, fly-wheel, first driving shaft or pulley attached to any such engine, and every appurtenance necessary for the safe and efficient working of a prime-mover;

“Prime-mover.”

“Owner” includes any agent or hirer using any boiler or prime-mover.

“Owner.”

3. (1) The Government may, at any time after the passing of this Regulation, appoint such persons to be Inspectors as it thinks fit, and suspend or remove any person so appointed.

Appointment of Inspectors.

(2) The persons so appointed shall, within such local area as the Government may direct, exercise the powers and perform

the duties conferred and imposed by or under this Regulation on an Inspector.

Use of boiler without license prohibited.

4. After such day as the Government may, by notification in the official Gazette, fix in this behalf, no boiler shall be used unless a license authorising its use has been granted under this Regulation and is in force.

Provision in respect of continued use.

Provided that the owner of a boiler who holds in respect thereof a license as aforesaid, and who, before the expiry of such license, gives to the Inspector for the local area in which the boiler is situated, not less than thirty days before such expiry, notice of his intention to continue to use the same afterwards, may continue to use or permit the use of the boiler, as allowed by the said license, until it is examined in pursuance of such notice.

Owner to give notice of intention to use a boiler.

5. (1) The owner of any unlicensed boiler shall, before using the same, give notice of his intention to use such boiler to the Inspector for the local area within which it is situated.

Inspector to appoint a day for the examination of the boiler.

(2) On receipt of the notice the Inspector shall appoint a day and time, after sunrise and before sunset, for the examination of the boiler. The day so appointed shall be a day, if the boiler is situated in the Kolar Gold Fields or the cities of Bangalore and Mysore, not later than one week; and if situated elsewhere, not more than thirty days from the day on which notice is received.

Examination by the Inspector.

(3) On the day and at the time so appointed, the Inspector shall carefully examine the boiler and every part thereof; and the owner or person in charge thereof shall afford to the Inspector all reasonable facilities for the examination, and all such information regarding the boiler as he may reasonably require.

Payment of fees for examination.

(4) Every person giving a notice under this section shall simultaneously pay the fees prescribed for the examination by a rule made under section 24.

Inspector may require owner to alter boiler.

6. If, on making the examination under section 5, the Inspector is of opinion that the boiler requires, in view to safe working, any alteration or addition, he shall refuse to grant a license until the alteration or addition is made, and shall serve on the owner of the boiler within forty-eight hours of his examination a written notice of his refusal, specifying the alteration or addition which, in his opinion, is required.

When Inspector to grant license.

7. When the Inspector is satisfied that the boiler is in good condition and not so exposed as to be likely to be dangerous, he shall give to the owner thereof a written license, signed by him, in the form prescribed in Schedule A hereto annexed or in a form to the like effect.

Period of license.

No such license shall remain in force for more than twelve months.

License to state certain particulars.

8. Every license granted under this Regulation shall state the period for which it is to continue in force, and shall cease to

122

be in force on the expiration of that period. Such license shall also state the pressure beyond which the boiler may not be worked.

9. On granting a license under section 7, the Inspector shall register the boiler in such form as the Government may prescribe and shall allot to it a number to be called the registry number of the boiler. The registry number shall be communicated to the owner, and shall, within such reasonable period as the Inspector may direct, be permanently marked upon the boiler by the owner thereof so as to be plainly visible and in such manner as Government may prescribe.

Boiler to be registered and marked with registry number.

10. (1) The owner of any boiler, who shall have obtained a license therefor shall, at all reasonable times during the period for which such license is in force, be bound to produce the said license when called upon to do so by the Chief Inspector of Mines or by the District Magistrate or by any person generally or specially authorised in writing by the Chief Inspector of Mines or the District Magistrate to demand its production.

Owner to produce license when called upon.

(2) A person who becomes owner of a boiler during the time for which a license therefor is in force shall be entitled to receive the license from the preceding owner and shall be subject to the provisions of clause (1) of this section.

Transfer of license on change of ownership.

(3) If at any time during the period for which a license has been granted under section 7 or section 13, any structural alteration or important renewal is made in any part of the boiler to which such license relates, it shall be the duty of the owner of such boiler to give notice in writing of such alteration or renewal to the Inspector of Boilers before the same is begun.

Notice of alteration or renewal in boiler to Inspector.

11. (1) It shall be the duty of every owner of, or person in charge of, the boiler to report in writing to the Inspector of boilers within twelve hours of its occurrence every accident to the boiler or to any apparatus attached thereto which is calculated to weaken the strength of such boiler or to render it liable to explode.

Report of accidents to Inspector by owner or person in charge.

(2) Every such report shall contain a true description of the nature of the accident and of the injury thereby caused sufficient to enable the Inspector of Boilers to judge of the gravity of the accident.

(3) The owner of, or person in charge of, the boiler shall be bound to answer truly to the best of his knowledge and ability every question put to him in writing by the Inspector of Boilers as to the cause, nature and extent of the accident.

12. Any person authorised by the Government in this behalf may revoke or suspend any license granted under this Regulation in respect of any boiler when he has reason to believe:—

Revocation and suspension of license.

(a) that the license has been fraudulently obtained, or has been granted erroneously or without sufficient examination; or

(b) that the boiler in respect of which it has been granted is not in good condition or has, since the granting of the license, sustained injury ; or

(c) that the registry number is not marked upon the boiler as required by this Regulation.

Appeal
against refusal,
etc., of
license.

Presentation
of appeal.

Issue of summonses in
connection
with appeal

Method of
hearing
appeal.

Procedure in
case of
successful
appeal.

Procedure in
case of
unsuccessful
appeal.

Inspector may
enter place or
building.

Government
may require
certificates of
competency.

Government
to make rules
or conduct of
examinations
for certificates
and to appoint
examiners.

13. (1) The owner of any boiler may appeal from any order made under this Regulation refusing to grant, or revoking or suspending, a license.

(2) The appeal shall within one calendar month from the day on which the owner received the order appealed against, be presented in person or otherwise to the Magistrate of the District in which the boiler is situate.

(3) The District Magistrate shall, within fifteen days of the receipt of the appeal, publicly enquire into and determine the appeal and shall have power to issue summonses for the attendance of witnesses and the production of documents, and the provisions of the Code of Criminal Procedure, 1904, shall, so far as applicable, apply to such summonses and the persons so summoned.

(4) The District Magistrate shall summon to his assistance, in such manner as the Government may direct, two competent assessors with the necessary practical knowledge and experience ; and such assessors shall attend and assist accordingly.

(5) If the District Magistrate is satisfied that the owner is entitled to the license, he shall grant a license in such form as the Government may, by rule, prescribe, or shall cancel the order revoking or suspending the license, as the case may be. He shall further direct that the expenses of the appeal incurred by the appellant, to such amount as may seem reasonable to him, shall be reimbursed from the public funds.

(6) If the District Magistrate is of opinion that the order appealed against is right, he shall dismiss the appeal ; and he may award any sum not exceeding one hundred rupees to be paid by the appellant as costs ; any sum so awarded shall be irrecoverable from the appellant as if they were arrears of land revenue.

14. An Inspector may at any time, for the purpose of inspecting a boiler, enter into any place or building where he has reason to believe that the same is being used.

15. The Government may, by notification in the official Gazette, direct that, from a date specified and within any defined local area, no boiler shall be used unless it is in the direct and immediate management and charge of a person certified under this Regulation, as hereinafter provided, to be competent for the charge thereof.

16. Subject to the provisions of Section 18, certificates of competency for such charge shall be granted only after examinations conducted under rules framed by Government under Section 24 (d) of this Regulation.

The examiners shall be appointed by Government; provided that in no case shall an Inspector appointed under this Regulation be nominated as an examiner.

17. Certificates of competency may be of different classes and shall qualify the holders thereof to manage or be in charge of boilers of such capacities or kinds as may be prescribed in the rules framed under Section 24 (c). Certificates may be of different classes.

18. (1) If any person holds a certificate of competency granted under the provisions of any law in British India, or in the United Kingdom or in any British Colony or any other place approved by Government, he shall be entitled to receive a certificate of competency as aforesaid, without undergoing examination. Possession of certain other certificates to entitle holders to certificates under this Regulation.

(2) The certificate granted under this section shall be of such class as the examiners appointed under Section 16, on a consideration of the nature of the certificate held, shall determine.

19. (1) The examiners may, in the case of any person who satisfies them that he has served for a period of not less than three years in actual charge and management of a boiler and that he is possessed of adequate practical skill for such work, grant to him a certificate of service to the effect that he is qualified to the like extent as the holder of a certificate of competency of any class which the Board in such certificate of service specifies. Certificates of service may be granted to persons possessing proved practical skill.

(2) A certificate of service so granted shall have the same effect as a certificate of competency granted under this regulation.

20. (1) If, on an enquiry conducted under this Regulation, it shall be established to the satisfaction of Government that the holder of any certificate granted under this Regulation is incompetent, or is addicted to drunkenness, or has been guilty of any serious misconduct or negligence, the Government may cancel such certificate, or suspend the same for such time as it shall deem fit. Cancellation or suspension of certificate after enquiry.

(2) The holder of such certificate shall surrender it pending the result of the enquiry, and, should he fail to do so, the Government may cancel the certificate by notification in the official Gazette. Pending enquiry holder to surrender certificate.

21. Whenever the holder of a certificate granted under this Regulation proves to the satisfaction of Government that such certificate has been lost or destroyed, the Government may direct that a duplicate of the same shall be issued; such duplicate shall have the same validity as the original certificate. Duplicates of certificates may be given.

22. (1) Any owner of a boiler, who fails to report as required by section 10, any structural alteration or renewal thereof; and Penalties.

(2) Every owner of, or person in charge of any boiler who—

(a) uses that boiler in contravention of the provisions of Section 4 or in contravention of the terms of the license granted under Section 7, or

(b) fails to produce a license when called upon to do so under Section 10 of this Regulation, or

(c) within a local area defined under Section 15 allows any boiler to be used when not in the direct and immediate management and charge of a person duly certified as competent under this Regulation, or

(d) fails to report, as required by Section 11, any accident of the kind mentioned in that section, and

(3) every person, who prevents an Inspector from entering, under section 14, any place or building, shall be punished with a fine which may extend to five hundred rupees.

Charges not to be brought after six months.

23. No charge of any offence under this Regulation shall be brought against any person after the expiration of six months from the date of the commission of the offence.

Power to make rules after publication.

24. The Government may, at any time after the passing of this Regulation, after previous publication, make rules consistent with this Regulation for all or any of the following purposes (that is to say):—

(a) for prescribing the qualifications, powers, duties, mutual relations and official subordination of Inspectors and of officers authorized to revoke and suspend licenses under section 12;

(b) for fixing the fees payable on account of examinations made by Inspectors under this Regulation at rates not exceeding those prescribed in Schedule B;

(c) for regulating the grant and record of certificates of competency and of service;

(d) for the conduct of examinations for such certificates and for regulating the fees to be charged for admission to the same;

(e) for providing for enquiry into an allegation of drunkenness, misconduct or negligence on the part of the holder of a certificate of competency or service;

(f) generally for carrying out the purposes of this Regulation.

Regulation may be applied to prime-movers by notification.

25. The Government may, by notification, apply so much of this Regulation as relates to the licensing, inspection or management of boilers to prime-movers generally, or to prime-movers of any particular class, in any local area in which this Regulation is, at the time, in force.
